## FUTURE COURSE OF COOLIDGE TOPIC OF MUCH SPECULATION

### No Longer Implement In the Hands of Fate, the Chief Executive May Play a Bigger Role.

### HAS THE MANDATE

By GEORGE R. HOLMES
I. N. S. Staff Correspondent.)

Washington, Nov. 6.—In the wake of an election which has brought about a new alignment in the reign[ing] Republican party, and put Calvin Coolidge in the White House for four years by overwhelming popular ma[jority], there followed today a train of speculation, not alone among the President's friends but among his opponents as well, as to the course of action that will mark his policies in the [illegible] less difficult months ahead.

Politics, so far as Mr. Coolidge is concerned, can now be put on the shelf for a long time. He need make [no] appointments to office, nor take executive action, as presidents [illegible] must, with an eye to the [effect it] will have on his party's political fortunes.

**Boss in His Own Right.**

[illegible] President in his own [right] and President no longer by the [illegible] of a whimsical fate that removed his predecessor from office. In a [simila]r situation, in 1904, Theodore Roosevelt is said to have remarked to [Mrs.] Roosevelt, "Madam, your husband is no longer a political accident." And to some friends, he is reported to have said, "Now watch me." There followed some sanguinary battles between T. R. and the Senate old [illegible].

[illegible] rectitude has thus far marked Mr. Coolidge's demeanor toward Congress. He has, during his year and a half, attempted no "big stick" methods. One reason perhaps was that Republican control of Congress was only on paper. He "push-

## MERCER OFFICERS TO PAY PENALTY FOR CONSPIRACY

[Mercer], Pa., Nov. 6 (INS.)—Will Goldberg, Charles Black, Alderman Fred K[illegible] and Lieutenant of [illegible] Lansdowne of Sharon, [were found] guilty of conspiracy by a [jury] in connection with the [illegible] of a case against Charles [illegible] who had been arrested on a [charge] of driving an automobile while [intox]icated.

[Accor]ding to evidence in the trial, [illegible] after being arrested was bound [over to] court by Alderman Keiser. [illegible] is alleged to have given Goldberg $1[illegible] to "fix" the case and Lieutenant Lansdowne changed the charge [against] Black to disorderly conduct, [illegible] was fined $25 and costs. ### LITTLE CHILD DIES

Olive Zoe, little daughter of Mr. [and] Mrs. George A. Thompson, of [illegible]ptonville, died this morning at [illegible] o'clock. Little Olive was born [illegible] 7th 1921 and was greatly beloved by her parents who so sorely feel the great loss. Funeral services will be held from the parental home Saturday afternoon at two o'clock in charge of Rev. E. Roy Hauser after which the little body will be taken to Mt. Joy for burial.

### TAX FIGHT TO BE WAGED ANEW

Washington, Nov. 6 (INS.)—Reduction of the surtax on big incomes to 25 per cent, will be recommended to Congress next month by President Coolidge, it was learned officially at the Treasury Department today.

This was one of the features of the original Mellon tax plan which Congress turned down [la]st winter.

## COOLIDGE GOT 3 MILLION MORE THAN BOTH DAVIS AND LA FOLLETTE

By GEORGE R. HOLMES
I. N. S. Staff Correspondent

New York, Nov. 5.—While a record breaking popular vote was cast in Tuesday's election, there appeared to be a doubt today whether the final figures will reach the 30,000,000 mark estimated by political leaders prior to the balloting.

Unofficial estimates today placed the total votes cast at approximately 29,000,000 as compared with 26,786,000 four years ago. These figures are based on heavy increases in registration in virtually every state and upon returns received up to noon today.

On an estimate of 29,000,000 it appears certain today that President Coolidge has eclipsed the record popular plurality of Harding four years ago. The unofficial tabulations today split the 29,000,000 votes in round numbers as follows:

Coolidge, 16,000,000; Davis, 8,500,000; La Follette 4,500,000.

In 1920 the Republican ticket polled 16,152,000; the Democrats 9,147,000; the Socialists 919,000, which, with scattering for other minor parties gave a grand total of 26,786,000.

Assuming the approximate correctness of the unofficial estimates for 1924, it can be seen that La Follette's Independent candidacy cut about evenly into both major parties, and, if anything, dipped a little more deeply into the Democrats than the Republicans. He hit the Republicans hard in spots as for instance Wisconsin, Minnesota and the Farm Belt, but he dug into the Democratic farm and labor vote pretty generally over the country.

In no state did President Coolidge run worse than second.

Coolidge's "big" states were New York, where he polled an estimated 1,800,000 votes; Illinois, Pennsylvania and Ohio, in all of which he went over the million mark.

Davis' "big" states were New York, Ohio, Missouri, Indiana and Kentucky. In New York he is unofficially estimated to have polled 800,000 votes.

La Follette's "big" states were New York, Wisconsin, Illinois, Pennsylvania, Minnesota, Iowa and California. New York gave him an estimated 400,000; Wisconsin approximately 375,000, Illinois 350,000 and the rest around 300,000. Ohio probably gave him 250,000.

## 245 REPUBLICANS, 186 DEMOCRATS, 4 OTHERS IN HOUSE

By A. O. MAYWARD
(I. N. S. Staff Correspondent.)

Washington, Nov. 6.—The new House of Representatives for the 69th Congress, according to latest unofficial returns, will be made up as follows:

Republicans, 245.
Democrats, 186.
Farmer-Labor, 2.
Socialist, 2.
Total, 435.

President Coolidge is assured of legislative control of the House by the Republican majority as it now stands. The La Follette managers have succeeded in returning to the House all the old following but they will be usable by coalition with the Democrats to outvote the regular Republicans on party legislaion.

**Pennsylvania Delegation.**

The defeat of Democratic candidates for the House was not so disastrous as in the Harding landslide in 1920. In that election they carried but 130 districts out of the 345. Their most spectacular loss last Tuesday was in Pennsylvania. The Republicans for the first time in years made a clean sweep of that state, carrying the 36 districts. The Democrats have six congressmen from Pennsylvania in the present House.

## "We Have Just Begun To Fight" Is Statement From Sen. La Follette

Madison, Wis. Nov. 5 (INS)—"By the election of President Coolidge the American people have chosen to retain in power the reactionary Republican administration with its record of corruption and subserviance to the dictates of organized monopoly" Senator Robert M. La Follete, Independent candidate for President declared today in his first formal statement regarding Tuesday's election.

The state called upon Progressives everywhere "to close the ranks and gird themselves for the next battle."

"We have just begun to fight," La Follette declared.

## SENATOR LODGE IS CRITICALLY ILL; CANNOT GET WELL

Boston, Nov. 6.—Senator Henry Cabot Lodge, senior Massachusetts senator, was in the shadow of death at the Charles Gate hospital today. The senator recently underwent two operations for obstruction of the bladder from which he was said to be recovering. A shock is responsible for the gravity of his present condition.

At 7 o'clock this morning, Dr. John S. Cunningham said the senator's condition was unchanged since midnight. Dr. Cunningham said that even if Senator Lodge survived the present attack he would be left a hopeless paralytic.

Senator Lodge was operated on for gall stones at Charles Gate hospital on July 27. The operation was considered successful and he returned to his summer home at Nahant after a brief stay in the hospital.

He was operated on a second time, October 20, with the intention of preventing any recurrence of the conditions which led to the first operation. Again his recovery was believed good until the relapse at noon yesterday.

## CORRECT BUSINESS METHODS TOPIC AT THE ROTARY CLUB

President Gurney Smith was elated last evening at the continued better attendance at Rotary meetings. The percentage is now well up in the eighties and still mounting. Last evening's meeting was in charge of Hobart Callahan's Business Methods committee. Hobart ably introduced the subject urging all members to affiliate with the local, state or national organization representing their classification. He then introduced Lawrence Dole who read a paper akin to the subject. Lawrence very instructively covered the topic, describing the ideal code of ethics by enumerating the things that should not be put therein. His purpose in approaching the subject from this angle was to forcefully point out the real purpose of a code of ethics; a guide to business men of any classification for the benefit of all people.

Cal Johnson reported the work of the Crippled Children's Committee progressing in nice shape, also on free will donations to the state society. Dr. Arthur D. Cowdrick was initiated at a five minute special meeting held after the closing hour. Visitors present were Bob Wilson, Captain of C. H. S. Football team, Kenneth Davis, Past President of the Amaka Club, Bill Boag, Seth Bloom and Prinicpal Baker of the DuBois High School.

President Gurney announced next week as Rotary Education night and expected visit from District Governor Roy Danzer of Hagerstown for Nov. 26th.

## PRESIDENT TRULY THANKFUL; GIVES RENEWED PLEDGES

### Makes No Appeal Except to Common Sense of People; No Pledge But to Serve All of Us.

### VICTOR IS MODEST

By H. K. REYNOLDS.
I. N. S. Staff Correspondent.

Washington, Nov. 6—President Coolidge has pledged himself anew to the promotion of the welfare of the American people.

The pledge was made in a formal statement thanking the electorate for the endorsement of his administration and for returning him to the White House by an overwhelming majority.

"It does not seem possible to me," the President said, "to make an adequate expression concerning the Presidency of the United States. No other honor equals it, no other responsibility approaches it. When it is conferred by an overwhelming choice of the people and vote of the electoral college, these are made all the greater. I can only express my sincere thanks to all those who have contributed to this result and plainly acknowledge that it has been brought to pass through the work of a Divine Providence of which I am but one instrument. Such powers as I have I dedicate to the service of all my country, and of all my office, I could not ask for anything more than the sympathetic consideration which my fellow Americans have always bestowed upon me. I have no appeal except to the common sense of all the people. I have made no pledge except to serve them. I have made no object except to promote their welfare.

The President's statement was issued following an exchange of telegrams between himself and John W. Davis, the defeated Democratic candidate, in which Davis congratulated Mr. Coolidge and expressed the hope that the new Coolidge administration would "inquire to the welfare of the country." The President's reply thanked Davis for his "patriotic sentiments."

Almost simultaneously, the President issued his annual Thanksgiving Day proclamation, setting aside Thursday, November 27, as a day for "National Thanksgiving."

"The year has been marked," Mr. Coolidge said, "by a continuation of the peace whereby our country has entered into a relationship of better understanding with all the other nations of the earth. Ways have been revealed to us by which we could perform very great service through the giving of friendly counsel, through the extension of financial assistance and through the exercise of the spirit of neighborly friendliness to less favored peoples. We should give thanks for the power which has been given into our keeping, with which we have been able to render these services to the rest of mankind.

"At home, we have continually had an improving state of the public wealth. The production of our industries has been large and our harvests have been bountiful. We have been rmarkably free from disorder and remarkably successful in those pursuits which flourish during a state of domestic peace. An abundant prosperity has overspread the land. We shall do well to accept all these favors and bounties with a becoming humility, and dedicate them to the service of the righteous cause of the giver of all good and perfect gifts. As the nation has prospered let all the people show that they are worthy to prosper, by re-dedicating America to the service of God and man."

### BROOKHART JUMPS INTO LEAD AGAIN

DesMoines, Iowa, Nov. 6. (INS.)—Senator Smith W. Brookhart, Republican, has an unofficial lead of 66 votes over Dan Steck, Democrat, in the Senatorial contest with all of Iowa's 2,418 pecincets unofficially accounted for. The figures were: Brookhart 445,293; Steck 445,227.

## SOME PECULIAR DEVELOPMENTS IN JEFFERSON VOTE

With but one precinct missing in Jefferson county and but three short in Indiana county, the election of Lee S. North, of Punxsutawney, Prohibition candidate for state senate from the Jefferson-Indiana county district, over Dr. W. S. Blaisdell, of Punxsutawney, the Republican nominee, is assured.

In 74 out of 75 precincts in Jefferson county, Blaisdell has a total of 7474 votes and North a total of 6243. The missing precinct is Clover and will not materially change the figures. In Indiana county 72 precincts out of 75 give North 8073 and Blaisdell 6380, a majority of 1691 for North in Indiana county. Blaisdell's majority in Jefferson county is 1231. giving North a lead of 462 votes with 4 precincts missing. The missing precincts in Indiana county, it is believed, will slightly increase North's lead.

North was defeated by Blaisdell for the Republican nomination for state senator at the primaries by approximately 500 votes. North at that time received the Prohibition nomination.

Nathan L. Strong, Republican nominee for congress, has defeated Dr. John H. Murray, of Punxsutawney, who ran on the Prohibition ticket. Strong carried Jefferson county by a margin of 1800 votes. Indiana, Armstrong and Clarion counties all gave Strong substantial majorities.

For representative in Assembly Charles H. Irvin of Big Run, the present incumbent, won easily over C. W. Biggs of Punxsutawney, the Democratic nominee. Complete figures are not available on the Assembly contest.

In Jefferson county Calvin Coolidge has a majority that will approximate 10,000. La Follette ran a strong race but it is believed finished behind Davis. Figures on the presidential race will not be available until the official count is completed.

Jefferson county polled the biggest vote in its history, the total Republican vote being close to the 14,000 mark while the total will approximate 20,000.

Mr. and Mrs. Abram Tate, of Nichols street, celebrated their Golden Wedding anniversary yesterday. They were united in marriage on Nov. 5th, 1874 where the Aughinbaugh Drug store is now located and after the ceremony they drove to Lumber City, the home of the bride, for the paternal blessing. The popular way of traveling then was the horse and buggy. The family, relatives and friends gathered at St. John's Lutheran church about the noon hour. The first thing on the program was a scene long to be remembered when three generations stood before the altar while the children of Mr. and Mrs. Harry Tate were dedicated to Christ in baptism. Following this all were invited to the dining room where the ladies of the Aid had prepared a most delicious chicken dinner which was greatly enjoyed by every one. At the center table where the immediate family were seated in the center of the table stood a bashful blushing bride and bridegroom as a part of the decorations.

The pastor reviewed the marriage ceremony and the happy couple, still happy after fifty years of toil, trials, joys and sorrows, renewed their vows, in the presence of the assembled guests. ## Tickets Going Fast For Greb Bout At Midway Armistice Day Afternoon

Philipsburg, Oct. 28.—The Philipsburg mill[illegible] show on Nov. 11, arranged by the John Ashley Dennis, Jr., Post of the American Legion as a suitable windup for the annual observance of Armistice Day in this section, takes on brighter aspects each day as interest mounts in the forthcoming event. The steadily increasing advance sale of tickets is another good sign that points to the success of the big boxing event on that date.

The fight has attracted widespread recognition and interest, as is reflected by requests for pasteboards being received from many cities in western Pennsylvania. Altoona fistic exponents have filed requests for whole blocks of tickets. Dick Conlon's appearance on the card is not the only reason for the popularity of the show in Altoona, as the fans have complimented the local Legion members on the merit of the show.

Piedro Campo, lightweight kingpin of the Philippines, will be Conlon's opponent at the forthcomng show.

A man with a punch that dazed dozens of leading heavyweights and a world war veteran who has distinguished himself in over 100 battles with some of the best heavyweights the world has known—that describes Bob Martin, who will endeavor to show the fistic populace how prominent heavyweights conduct themselves within the 18-foot enclosure when he meets Ray Vaullerment of Philadelphia in the semi-windup of the card.

Harry Greb, world's middleweight champion, will tackle Otto Hughes, former 160-pound titleholder of the U. S. Navy, in the main bout of the card. The opening battle will bring together Mickey Burket of Altoona and Johnny Jadick of Philadelphia, two fast stepping bantamweights.

Tickets for the show may be reserved by writing to the American Legion at this place.

### FORD SALES RECORD BREAKER FOR 9 MONTHS

Sales of Ford cars and trucks in the United States alone for the first nine months of 1924 reached the enormous total of 1,500,905, the greatest domestic retail delivery record in the history of the Ford Motor Company for a similar period of months. It represents an increase of 11 per cent over the record of 1,353,918 cars and trucks sold during the same months in 1923.

Dealer reports from practically all parts of the country show increases over last year, so that all are sharing in the general prosperity.

### Curious South-Sea Jargon.

Bench-la-mer is a curious jargon which has developed as a means of communication between English-speaking traders and the islanders of the western Pacific. It derives its name from that of an edible marine organism, the fishing of which flourished in the South seas in the middle of the last century. Nearly all the words in this language are English, but they are strung together by the natives in accordance with the rules of their own speech.

### A Solvent.

"Liquor always loosened up our patrons," said a waiter reminiscently. Meaning, we suppose, that it released the "tip" from the tipplers.—Boston Transcript.

### Eleventh Commandment.

Answering a question as to the religious significance of the so-called Eleventh Commandment, a reader states that the answer is found in the book of John 13:34, in which Jesus said: "A new commandment I give unto you, that you love one another."

### Doesn't Seem Right.

I know a man who is an enthusiastic worker for the uplift of others and yet not on speaking terms with his own brother. I do not comment on this, I simply mention it.—Louisville Courier-Journal.

## GETTING UP NIGHTS

Tells you there is danger ahead. A healthy bladder does not act at night. J. H. Dorton, W. Graham, Va., says: "I have to get up seven or eight times at night for forty years. I thought it was my age. After taking Lithiated Buchu a short time, I am ahead." Lithiated Buchu cleanses the bladder as Epsom Salts do the bowels, thereby relieving irritation, driving out foreign matter and neutralizing excessive acids. These are the causes of unnatural action of the bladder at night. Lithiated Buchu (Keller Formula) is not a cheap medicine. The tablets cost two cents each. Sold at all leading drug stores or Keller Laboratory, Mechanicsburg, Ohio. Locally at Stewart Drug Co.

## ODDS AND ENDS AND THINGS

By J. D. C.

There is always one thing a fellow can say about the labor vote". Labor is awfully strong at endorsement, but equally short on voting for the candidate endorsed.

United States Senators and members of Congress elected yesterday, also take office on March 4. Unless a special session of Congress should be called at that time, however, they would not sit as members of Congress before the first Monday in December, 1925.

Members of the State Senate and of the House of Representatives in the General Assembly take office Dec. 1. They will be the first to be inducted into office. They do not begin active service as Legislators, however, until the first Tuesday in January, when the Legislature convenes. The date for the opening of the 1925 Legislature will be January 6.

Presidential electors chosen yesterday, will meet in their respective states the second Monday of January, or January 12, and cast their ballots for President and Vice President and forward them to Washington.

The Pennsylvania electors will meet in Harrisburg January 12 and cast their ballots.

## Market News

New York, Nov. 6. (INS.)—Strength and activity of railroad stocks, under the leadership of Atchison and New York Central, featured the stock market in the early trading today.

Industrial and specialty stocks maintained a strong tone, with prices of market leaders fractionally higher than at the previous close. Mixed movements characterized the oil and copper stocks, some of them giving ground on profit taking, while others inaugurated new forward movements.

While the market was devoid of the spectacular features which ruled in Wednesday's early session, quiet strength prevailed in every department. Stocks were absorbed as fast as they were offered. A good impression was created by the belated reports from some of the election contests showing that the overthrow of the so-called radical element in the west, which advocated sweeping changes in railroad legislation, had been complete. This was of particular significance to investors in railroad securities since it promises relief from congressonal attacks on the transportaton systems.

## An Endorsement of Pigeon Hosiery

One of our good friends was in the store early this morning and called our attention to last night's advertisement about the wearing qualities of PIGEON HOSIERY.

"You were too conservative," she said, "You did not make it strong enough. I started to wear two pairs last Christmas and I have one of them on now. They are not showing the least sign of a break anywhere and the other pair is just as good."

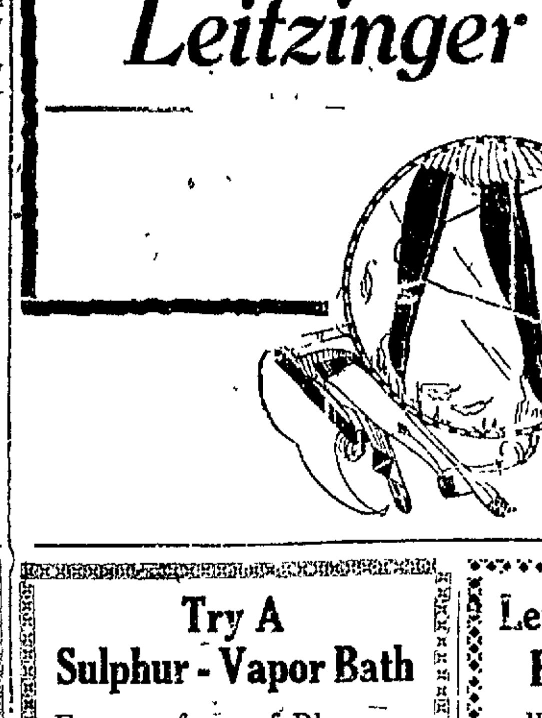

Think of it! Nearly a year's wear from a pair of silk hose!

The colorings of the hose were good. The hose at the line of the top of the oxford the lady wore did not show the usual "shoe-line" wear.

And, being an official "PIGEON" Agency in this city we can place our guarantee behind the maker's and tell you that we will protect you in every way against every defect in PIGEON HOSIERY.

## PEOPLE ARE BUYING

If times have been hard this year, or are hard at present, the big chain stores and mail order houses don't know it.

Sears, Roebuck & Co. of Chicago reports an almost incredible wave of prosperity. A big department store with branches in various cities estimates that its sales will reach $105,000,000 for the year, against $90,000,000 last year and $61,000,000 the year before. Gimbel Brothers of New York expect to do several million dollars' worth of business more than in 1923. Another firm covering a wide territory estimates its sales for 1924 at $80,000,000, against $73,000,000 in 1923 and $61,000,000 in 1922. A big dry goods organization says its earnings this year will be about $20 a share. Montgomery Ward, Kresge, Woolworth and other dealers in their lines, which reach into every community in America and into almost every home, say their sales have shown a good increase and indicate a continuation of the demand.

Here is proof of the best kind, from many sources, that the plain people—the average consumers, who count most in any estimate of national well-being—have money and are buying. Which is, after all, no more than should have been expected, in a situation so sound economically as that now prevailing.

## THE THIRD DEGREE

The Supreme Court of the United States has condemned in scathing terms the common police practice of the "third degree". The case may become a notable one. It is that of a Chinese named Wan, accused of murder in the District of Columbia and convicted on his own alleged confession. That confession, the court holds, was invalid, because he confessed under coercion and virtually under torture. So the court reverses the verdict and takes occasion to read a lecture to the police on their procedure.

It appears that the defendant, seriously ill, was taken to the police station, held incommunicado, bombarded with interminable questions, taken to the scene of the crime and compelled to reenact a representation of it and kept without sleep or medical care for nearly two weeks. At last, in weariness and desperation, he yielded and signed his "confession".

Many a man did the same thing in the Spanish Inquisition, and in other inquisition not spelled in capital letters. The process is far more common in this country than the police anywhere like to admit, or than the public has any idea of.

For many other wrongs, it is meant for a praiseworthy purpose—the detection and punishment of crime. It may be defended when applied in moderation, to exceptional cases. The trouble is that it is so easy to abuse principle and go to extremes, without any warrant in law or regard for basic human rights.

It can be said, without any suggestion of coddling criminals, that the decision of the Supreme Court should serve as a warning to police officials everywhere. It should remind them that in America every man is legally innocent until he is proved guilty, and that no matter how strong the presumption of guilt, every man still has inalienable rights, in the police station as in the court room.

## FUTURE COURSE OF COOLIDGE

(Continued from Page One.)

ed" the Mellon plan, vetoed the bonus and the postal pay increase bill, but in so doing he did not "fight" Congress in the sense that Roosevelt did.

For the next three months, the President will have to deal with the same recalcitrant Congress that has fought him and administration policies generally throughout his tenure of office. Moreover, it is now a "lame duck" Congress, and probably more recalcitrant still.

Little can be expected of it except the passage of the usual appropriation bills before it dies naturally the fourth of March next.

**New Congress Next Year.**

The new Congress, elected Tuesday, is somewhat better, but it is a question whether it will be more amenable to White House discipline than the outgoing one. While the Republicans appear to have made substantial gains Mr. Coolidge will still have to face narrow working majorities in both houses. And in the Senate particularly it is question whether the margin of control will not still be vested in a combination of Democrats and those of his own political faith who do not agree with many of his policies—La Follette, Frazier, Ladd, Norris and others who on occasion vote with them.

It may be that the Senate will be more in awe of Coolidge in the face of the popular endorsement Mr. Coolidge received at the polls on Tuesday and the severe lacing administered some of his foes. Again it may not be confronted with this situation. The questions being asked around Capitol Hill today were:

**Will Coolidge Change?**

"Will there be a 'new' Coolidge, a militant, forceful, dominating aggressive Coolidge, who will drop the mantle of reserve that necessity forced on him when he became a dead President's constitutional heir? Will he bludgeon Congress into doing his bidding? Will he, now that he is President in his own right, force action on the world court in an unwilling Senate, the unwilling ones being in his own party? Will he again attempt to jam through the Mellon plan, lowering taxes on huge incomes, in the face of Democratic and Progressive opposition?"

All these and many similar questions will be answered in the months immediately ahead of Calvin Coolidge—President no longer by a stroke of fate, but by one of the most impressive popular triumphs in the history of American politics. It is expected that the cabinet, part of which Mr. Coolidge inherited and part of which he appointed, will continue in office. He has at the outset one vacancy to fill, in the Department of Agriculture, due to the death of Henry C. Wallace.

It is said the President is endeavoring to obtain for the post ex-Governor Frank O. Lowden of Illinois, who, had he consented to it, would have been the next vice president. He was nominated at Cleveland and then turned it down. Lowden has been offered and refused more government jobs than any man extant. Harding offered him three cabinet posts and his choice of a diplomatic aappointment, all of which were rejected.

Lowden's friends say that he still does not want any job, but that his interest in agriculture might lead him to accept it. Agriculture is his hobby and chief avocation. The acquisition of the ex-governor would bring into the Coolidge cabinet an outstanding figure in public life, as well as one of the foremost agricultural authorities of the country.

It is considered certain Charles E. Hughes will remain as Secretary of State. He was Coolidge's chief spokesman during the campaign. It is likewise considered certain that Andrew W. Mellon will remain as Secretary of the Treasury.

Two other members of the cabinet, Attorney Stone and Secretary of the Navy Wilbur are Mr. Coolidge's own appointees and are expected to stay.

Concerning the balance of the official family there is some doubt.

There have been reports recently that Secretary of War Weeks and Secretary of Commerce Hoover are as anxious to retire, the former on account of advancing age, the latter for private business reasons.

This leaves Postmaster General Harry E. New, Secretary of the Interior Work, and Secretary of Labor Davis, all members of the Lowden cabinet. Their future is said to be uncertain.

One of the early changes President Coolidge is expected to make is in his private secretary, C. Bascom Slemp, who, now that the campaign is over, is said to be anxious to get out. There has been constant friction between Slemp and William M. Butler, generalissimo of the Coolidge campaign.

There is also keen speculation in the capital as to what reward Butler will receive for promoting one of the most successful campaigns in Republican history. The expectation prevails that a cabinet post will be made available to him before many weeks.

## PENNSY-GRAMS

Philadelphia, Nov. 6 (INS.—Police today arrested Martin Watson 20, who is charged with knocking a fellow workman to his death yesterday while both were working on a scaffold forty feet above the ground. It is alleged James Garrow, the dead man was struck by Watson who then fled over the skeleton framework of the building with other workmen in pursuit.

Bradford, Pa., Nov. 6 (INS.)—The most disastrous fire here for years this morning caused damage estimated at $350,000 when the large brick building of the Star garage on Barbour street was totally destroyed. Approximately $50,000 of the loss is covered by insurance.

The building contained 125 automobiles which were destroyed, fifty cars on the first floor being taken out by employes before the flames reached them.

The blaze started with an explosion of unknown origin on the second floor.

### LET THEM TRY IT

By FLORENCE DAVIES

One would suppose that a new form of government, having a country to make over, would be so busy with essentials that it would let purely personal matters alone. But it seems that such is not the case. The world of today is engrossed in an effort to regulate the personal affairs of the individual, and nothing is too trivial for the reformer's hand.

Here's Russia, for instance. Now, you'd certainly think that the Bolsheviki had plenty to do, what with trying to establish their new kind of government on a people so long ruled by a czar. You'd think that with a country to make over, with the whole world looking skeptically on their economic theories of government, they would devote their attention to making their land prosperous and happy, just to prove the scoffers wrong.

And of course, you'd be all wrong.

Some of us have looked on with more or less toleration while the Soviets ruined their nation's aristocracy. Maybe they deserved it, we thought. We even held our peace while the Soviets set their faces against the Church. If the Church is right, and necessary to the Russian people's happiness, it will survive, we said. And we watched unmoved while the Bolsheviki undermined their country's commerce and ruined its industry. If they can make communism pay, why, let them do it, we said. Russia is a long way off and some day somebody must prove every theory right or wrong.

These were trifles. And they were matters of governmental prerogative. Probably that is what the people thought they wanted. And maybe, after all, one method of business, or one class of society, is just as good as another.

But now the Soviets have proved that they are all wrong, that they are not fitted to govern, that they don't know anything about government, or religion, or business, or aristocracy. What do you suppose they've gone and done now? They have forbidden kissing. Which just proves that, in addition to all the rest of their shortcomings, they don't know anything about human nature.

The Church may fail, and new Churches will arise; business may be abolished, and new ways of trading will be found; aristocracy may be killed off or humbled, and the nobodys will become somebodies. But the kiss has stood since the begining of time; it preceded religion, and aristocracy; it was a sign and a symbol before even trading came to presage modern business, and it will survive the newest form of government just as surely as it lived through ages which knew no government at all.

In America society bootlegs its liquor. But in Russia it will "bootleg" its kisses.

# oint-Ease

Says Druggist

"Joint-Ease is selling like hot cakes in my store because it is a wonderful and speedy remedy for all joint troubles.

"But why not impress on tens of thousands of suffering people some of the things that dozens of my customers tell me almost daily.

"Some say that it knocks out lumbago over night—others assert that for chest colds and sore throat it has no equal, while many insist that there is nothing ever tried that is so efficient for neuralgia, neuritis and even headache and nasal catarrh."

Answering the above letter, we, the makers of Joint-Ease, know that at this thriving New Jersey druggist says it is true, but we still maintain that Joint-Ease is prepared for the inflamed, painful, swollen joints, whether in ankle, knee, hip, elbow, shoulder, fingers or spine.

You'll like to use penetrating Joint-Ease, for with just one minute's rubbing, it soaks in through the flesh direct to the ailing bones and ligament that's why it succeeds—for when Joint-Ease gets in joint agony gets out—and without any waste of time or swelling and congestion disappears. Ask Stewart Drug Co. or any druggist anywhere.

## BOWMAN GOT A BEAR

M. T. Bowman, the local real estate man, came to town from the Keating country on Monday evening with a fine big bear he had shot and killed in the wilds down near the junction of Clearfield and Clinton counties.

The story goes from the Keating region that Tom had followed the bear for a day and a night before he finally succeeded in downing him. When the daring hunter fired the fatal leaden pellet into the bear's brain the hunter and his quarry were less than 12 feet apart. Tom had placed one foot on a log crossing a deep but narrow gully when the bear loomed up at the other side of the gully directly in his path and but 12 feet away. Two shots in quick succession and the bear was as dead as the Democratic party. It weighed 350 pounds and was a fine specimen.

Allen Gaines hau been hunting the same bear for some time.

## COUNTING THE VOTE

The work of computing the vote cast in Clearfield county at Tuesday's election was begun at 12 o'clock noon today as the law provides. At that hour Messrs James Kenna, of Osceola; R. M. Hershey and Joseph R. Chase, of Clearfield who had been appointed by Judge Chase, were sworn in and the Return Board organized.

Adjournment was then had and at 1:30 this afternoon the entire Board consisting of Judge Chase, Prothonotary Ralston and the three gent'emen named, took up the labor of computing the returns from the 110 districts of the county.

More than 21,000 votes were polled Tuesday the largest in the county's history tho but little more than fifty per cent of the total registration, and the work of computing the returns will likely take ten days or two weeks.

You can trust Atlantic Gasoline always. You can depend on it to meet every improvement in automotive construction and to keep step with every development in refining progress. You can be certain that Atlantic is thoroughly efficient under all of the widely varying conditions under which a motor fuel must operate.

Atlantic is *full-powered* gasoline. It is clean. It is uniform. It is scientifically *balanced*. It is made to fit the seasons and regions in which it is sold.

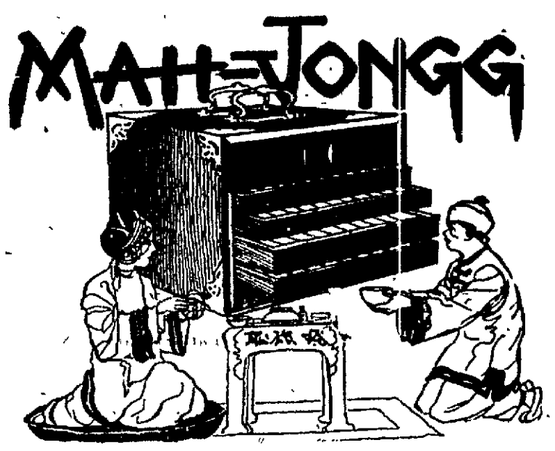

If you could see—if you could follow—if you could analyze the minute processes of combustion attending the burning of a charge of Atlantic, you'd find this: That Atlantic vaporizes easily and lets the spark take hold instantly. That it burns completely and releases its dynamic force exactly when the timing mechanism tells it to. That it leaves almost no carbon. And that it contains nothing to pit your valves or injure your motor in the slightest degree.

So bear in mind that in Atlantic you get more than good gasoline—you get *right* gasoline. You get the product of one of the oldest and most progressive refining organizations in the country—a product behind which is the experience of men who know what crude oils contain the most desirable motor fuel distillates, how best to extract them and how scientifically to balance them for utmost efficiency. Atlantic refining engineers overlook nothing in keeping Atlantic at the forefront of motor fuels.

No, sir! You can't go wrong on Atlantic. You can't buy a gasoline that better serves your needs or better conserves your motor. Always right, always full-powered, always dependable.

## Tom Sims Says

Trees have their limbs bare in winter and covered in summer, differing from women in summer only.

No woman is an old maid until she dresses like one.

Our greatest kick against the scenery in autumn is we run out of adjectives.

Well, they claim a man in Vienna has 42 wives, so all we can say is he wins the loving cup.

A man who took a drink in Peoria, Ill., woke up in Miami, Fla. Anyway, he was lucky to wake up at all.

A Springfield, (Mo.) girl of 19 married a man of 85, and lawyers claim he is crazy, while we claim she is.

Twelve were jailed for tarring and feathering a Maryland girl, a case where fine feathers made sad birds.

It's a strange thing, but no matter how an election comes out, the country never goes to the dogs.

Utah woman killed her husband on their honeymoon, instead of putting up with him for a while.

Some people go hungry for fear of biting off more than they can chew.

The trouble with owning a grouchy look is you seldom get a pleasant one.

One meek as a kitten may grow up to be a wild cat.

### It Happens Every Day

When you begin to figure that you are doing pretty well to have a little pile saved up toward buying a car, and you and your wife spend quite a bit of time in considering what kind you'll get—it must be small, but good—

And then the man across the street—whose income you know isn't any bigger than yours—breaks out with a handsome touring car that must have cost twice what you were counting on paying—

And your little car that you're going to get "one of these times" doesn't look nearly so good as it used to, and you're feeling pretty discouraged—until one evening your wife tells you that the wife of the man across the way just told her that their car isn't a new one—

And that he saw an ad about it in the Progress Automobile columns and got it for less than you have saved up—and that you can do the same thing, yourself, if you watch those ads—

That Puts The Joy Back Into Life!

## Curwensville's Own Column

George C. Fleming went over into Centre county the first of this week and came home election day lugging a twelve pound wild turkey. There was no suspicion that "Piney" had not make the kill himself, as a leg wing and the head was shot away.

Isaac Kantar and son are spending this week in New York and other eastern cities laying in a supply of saleable winter goods.

Those interested in the Greenwood Hunting Club indulged in a card party last evening with their wives and number of invited guests from several sections of this and Indiana county. Dr. Sloan of Cleveland was among the foreign guests.

Mr. and Mrs. David Clymer of Lebanon, Pa., are the proud parents of a young daughter which Dr. Stork left at their home on day last week. The mother will be remembered as Miss Ruth Ake, formerly of this place, and daughter of Dr. Ake.

In conversation yesterday with several men who are interested in bringing that new building brick plant to Curwensville, we were told that the start was coming without fail. Men interested from a distance were in town early this week and held conferences with the people here who are promoting the industry. Plans have already been laid for the buildings and kilns, the latter being of the continuous pattern which are more practicable and saving than the old style round kilns. Options have been taken on threesites, none of which have been chosen as yet. Both buff and red bricks are to be manufactured and it is claimed that the plant when it once gets started will employ from 90 to 100 men. The handling of the stock we are also informed will be owned by home people and that fact alone is best assurance that it will be successful. There will be a wonderful demand for building brick in the spring there being no brick yet in color wanted. The people of Curwensville will welcome this new industry in their midst, knowing that it is not going to interfere greatly with the other large plant that is already here in operation, as the two kinds of bricks are in no ways similar.

There was not a great deal of fuss around Curwensville at or over the election on Tuesday. A large vote was polled, the total vote being 762. The First ward tallied up 370 and the Second ward went 22 better, its vote being 392. The vote for W. L. Swoope was 485 and for Benson 322 ;Swoope's majority 163. Lukehart, 387; Betts, 381; Weiser 124. Lukehart having a majority over both opponents of 87. Coolidge received 597 votes; Davis 182 and LaFollette 56. The balance of the vote was largely Republican. Constitutional Convention No. 393; Yes. It has been very rarely if ever if Curwensville went and gave a Presidential candidate on the Democratic ticket a majority, although several narrow escapes have been made from time to time. We are noted for being a strong Republican town ever since the Civil War and can be depended upon to roll up a decent Republican majority at time of every Presidential or State election. In borough affairs the voters sometimes jump over the fence but not often.

John Flynn, a former resident of Clearfield died yesterday afternoon at his home on North Walnut street after an illness of but a few days, aged 77 years. The body will be taken to Greensburg tomorrow for burial.

## SWEATERS OF ELEGANCE KNITTED OF PURE SILK AND PLAIDED

SPEAKING of knitted apparel quite apropos nowadays, is the phrase, "To the queen's taste," for recorded in the history of present-day fashions is the interesting statement that Queen Mary of England has chosen not less than six knitted outfits as part of her fall wardrobe.

Nor is it to be regarded as other than a logical sequence that knitted costumes should qualify as raiment for royalty as interpreted this season in terms of picturesque tunic frocks, handsome ensemble suits, novelty topcoats, sweaters the like of which have never been equaled, not to mention scarfs, shawls and the like.

When it comes to sweater elegance, exclusive taste favors the type knitted of pure silk and plaided in colorings most intriguing. White and red is a very fetching combination when plaided after the manner of the model shown in this picture. In the superiority of its quality it carries a convincing air of patrician style.

Individuality and originality have reached their highest expression this season throughout all knitted outerwear. Remarkable effects are attained in brushed wool, in clipped yarn trimmings, in knitted boucle and fur simulations, in combinations of woolen yarn with rayon or fiber silk, in gorgeous embroideries, gay colors on white knitted garments especially.

Among the knitted garments playing an important role at all fashionable occasions where sportswear prevails, the three-quarter length coat, most frequently in brush wool, is the outstanding item. These are not flamboyant in color but, rather, developed in soft woolen yarns. Soft blendings of brown and tan worked in mosaic patterns are favored.

The plaided knit coats with trimmings of solid-color brush wool are handsomely featured, especially making color the basis for effect. Prominence is especially given to two distinctive colors in the newer garments, namely, henna and powder blue. In regard to the latter, shades of interesting blues have become quite a fad among the younger set, who wear coats, hats and scarfs to match in mellow blue often combined with gray.

Fort Worth, Texas, Nov. 6 (INS.)—Fire following the explosion of five bombs in the Ku Klux Klan newly constructed additorium here today completely demolished the structure with a loss of $200,000.

Klan officials say a dozen witnesses who were in the vicinty of the building when the first blast occurred, declared the auditorium was practically wrecked before flames permeated the ruins. The first explosion sent the roof crashing down, followed quickly by more discharges that collapsed the walls.

The huge hall, but recently dedicated covered a block in length.

The Kafir's ritual of worship, such as it is, consists of war dances and wild appeals to the god of war. Throughout these ceremonies there is interwoven a curious thread of Zoroastrianism, and Hinduism, as we might expect, but mainly it is pure paganism, and the god whom they delight chiefly to worship is their god of war—Gish.

## Why Suffer From Bronchia Asthma?

**Simple Home Treatment Makes Breathing Easy**

Just because you start the day tired, lifeless, worn-out from lost rest and the difficult breathing of miserable Asthma—do not think you have to stay this way long.

Be strong and well, breathe clearly and easily again by using this simple treatment known as Oxidaze, the prescription of a Worcester, Mass., physician.

For any form of Asthma where the bronchial tubes are irritated, the breathing short and difficult, its healing, relieving action is really wonderful. Sufferers who can't breathe at night and who gasp for a good, clear breath will appreciate the relief and comfort Oxidaze gives.

Oxidaze is a tablet made from essential oils which, when the patient dissolves in the mouth, almost immediately soothes the irritation, clears out the closed up air passages and enables the sufferer to breathe easily and get a real comfortable night's sleep.

It is sold by leading druggists, including Bloom's Drug Store, who agree to refund the full purchase price of the first package to any sufferer who does not obtain satisfactory relief. Asthma sufferers should give Oxidaze a trial. It is harmless and inexpensive.

## FARM STOCK

### YOUNG PORKER WILL MAKE CHEAPER GAIN

When does a pig make its cheapest gains, and when does it sell for the highest price per pound? This is a question that often confronts the farmer who is raising pigs for the market, says Prof. L. V. Starkey, chief of the animal husbandry division at Clemson college, in discussing the marketing of hogs.

Experimental data prove beyond a doubt that the younger the pig the cheaper the gains. A review of the pig market reveals another very interesting fact, namely, that feeder pigs sell for a higher price per pound than those which are ready for the block. If we put these two ideas together it would seem that there is more money in producing feeder pigs than there is in producing fat hogs ready for market. Of course there are many factors, says Professor Starkey, to take into consideration in producing feeder pigs. For example, fairly large litters must be raised. If the herd does not average at least six pigs per litter there will be no money in it. Large litters and cheap pigs go together.

One reason why feeder pigs are so much in demand is that there are so many who do not keep a brood sow and yet they want one or two pigs to fatten for pork.

The man who produces feeder pigs on a large scale must have considerable equipment. Several small lots are necessary in order that not more than two brood sows may be in a lot. Usually good results cannot be obtained by keeping several brood sows and litters together.

With the small-lot proposition there also comes the problem of fresh water. Running streams are ideal for the hogs, but hard to keep fenced. If water is piped to the lots, care must be taken so that there will be no mud wallows.

Male pigs should be castrated at from six to ten weeks of age. The younger they are castrated, the less will be the shock. The best time to wean feeder pigs is when they are eight weeks of age.

The greatest demand for feeder pigs is in the fall when corn is ready to be used. At this time carlot shipments can be made.

### Proper Ration for Mare Is of Much Importance

"The best time to grow foals, and the time when they will make their largest gains is when they are being carried by their dams," says N. K. Carnes of the animal husbandry division at University farm at St. Paul, Minn. "Many farmers do not realize this, and begin feeding the mare a proper ration only after the foal is here. The brood mare, when in foal, should be fed a high protein ration, a ration which is rich in muscle and bone building material. This material is supplied in the form of oats, bran and oil meal, as a concentrate, and clover or alfalfa hay as a roughage.

"The most common causes for losses among foals are constipation and navel trouble. As soon as the young foal arrives, see that he gets a good drink of his mother's first milk. This fore-milk or colostrum has purgative properties and will usually clear the foal's intestines of the excrement accumulated prior to birth. If the digestive tract is not cleaned by the fore-milk, give the foal a tablespoonful of castor oil and a warm water and soap rectal injection.

"Another thing the farmer must watch out for is navel infection. If pus and disease germs get inside the body through the opening of the umbilical cord, a local infection or 'joint ill' may develop and the foal be lost. The best way to prevent this is to keep the stable in a sanitary condition and treat the cord immediately after the foal is born with boric acid powder or tincture of idoine."

### Live Stock Hints

Avoid stagnant mud wallows.

* * *

Change pastures for sheep frequently.

* * *

A pig that doesn't make a hog of himself isn't profitable.

* * *

"Purebred Live Stock on Every Farm." Eventually, why not sooner?

* * *

Watch your sheep carefully to see that they do not become infested with worms.

* * *

Tip to dairymen: Proper feeding means cheaper milk and, therefore, more profit.

* * *

Cattle, horses and sheep as well as hogs are fond of hay, but they cannot be expected to eat the coarse stems.

* * *

Colts, calves, lambs and pigs, all should have special feed set apart for them as soon as they can be coaxed to eat. Oats are very good.

**At Anchor in the Bay of Yeddo.**

The evening we dropped anchor in the bay of Yeddo the moon was hanging directly over Yokohama. It was a mother-of-pearl moon, and might have been manufactured by any of the delicate artisans in the Hanchodori quarter. It impressed one as being a very good imitation, but nothing more. Naumikawa, the cloisonne-worker at Tokio, could have made a better moon.—Thomas Bailey Aldrich.

**World's Supply of Indigo**

Indigo, which is obtainable from plants of several species, is probably the oldest dye known to mankind. At the present time the bulk of the world's supply of indigo is obtained chemically from aniline. The importance of natural indigo is rapidly diminishing. About the only regions where indigo farming still prevails on a commercial scale are Bengal, in India, and Salvador, in Central America.

## Says Piles Heal Up and Disappear Forever

**Seldom Fails to Give Absolute Relief from All Pain and Suffering. Guaranteed by Stewart Drug Co. and All Good Druggists.**

Many sufferers from Piles or Hemorrhoids have become despondent because they have been led to believe that thir case was hopeless and that there was nothing in the world to help them.

To these people we say, "Go to your druggist and get an original box of MOAVA SUPPOSITORIES." One of these inserted into the rectum according to directions will be found to give immediate relief. They reach the source of the trouble and by their soothing, healing, antiseptic action first allay the pain and soreness and then by direct contact with the ulcers and piles cause them to heal up and disappear forever.

It's simply wonderful how speedily they act. Blessed relief often comes in two days. Even in cases that have resisted all known treatments, marvelous results have been obtained. MOAVA is one of the wonderful discoveries of recent years and any sufferer from Piles or Hemorrhoids who is disappointed with its use can have their money refunded.

## DAYTIME FROCKS EXPLOIT THE BLOUSE AND TUNIC

A COSTUME made up of a plaited skirt worn with an overblouse, is [illegible] as the A B C's and about as established. The plaited skirt [illegible] the year in and out but always holds its cause with success, as a perfect companion piece to [illegible] different sorts—for practical. But this fall we have plaited skirts constant to one overblouse, each [illegible] the sign of their union in [illegible] and novel decorations. One of [illegible] wholly charming and practical [illegible] is shown here and the chances [illegible] many a woman will want one [illegible]

It is of black satin with a [illegible] that is made of white [illegible] in a fold, placed at each [illegible] skirt and at the front of the [illegible] Over this there are tabs of [illegible] each one held in place on the fold by a flat, pearl button sewed to it. The same kind of trimming is made, using tan or ecru crepe de chine with black or other dark colors in satin. Handsome collar and cuffs of filet lace seem a better choice than any other—they are as chic and dependable as the blouse they finish. Business women will find this model worth considering.

The last arrivals in day dresses show the tunic dress in many pretty versions. The tunic blouse has made a sweeping success and is developed in almost as many variations as the overblouse—it is usually worn with a plain, narrow skirt. By these means the [illegible] straightline modes are given further diversity.

But now he will tell me to get a bottle of Lydia E. Pinkham's, and it has always helped me. ### No Longer Implement In the Hands of Fate, the Chief Executive May Play a Bigger Role.

Washington, Nov. 6.—In the wake of an election which has brought about a new alignment in the reign[illegible] Republican party, and put Calvin Coolidge in the White House for four [illegible] by overwhelming popular ma[illegible] followed today a train of [illegible]cussion, not alone among the President's friends but among his opponents as well, as to the course of action that will mark his policies in the [illegible] less difficult months ahead.

Politics, so far as Mr. Coolidge is [illegible], can now be put on the [illegible] for a long time. He need make [illegible] appointments to office, nor take executive action, as presidents [illegible] must, with an eye to the [illegible] will have on his party's political fortunes.

He is now President in his own right and President no longer by the [illegible] of a whimsical fate that removed his predecessor from office. In a [illegible] situation, in 1904, Theodore [illegible] is said to have remarked to [illegible] Roosevelt, "Madam, your husband is no longer a political accident." And to some friends, he is reported to have said, "Now watch me." There followed some sanguinary battles between T. R. and the Senate old [illegible]

[illegible] rectitude has thus far [illegible] Mr. Coolidge's demeanor toward Congress. He has, during his year and a half, attempted no "big [illegible]" methods. One reason perhaps was that Republican control of Congress was only on paper. He "push-

### TAX FIGHT TO BE WAGED ANEW

Washington, Nov. 6 (INS.)—Reduction of the surtax on big incomes to 25 per cent, will be recommended to Congress next month by President Coolidge, it was learned officially at the Treasury Department today.

This was one of the features of the original Mellon tax plan which Congress turned down [illegible] winter.

## COOLIDGE GOT 3 MILLION MORE THAN BOTH DAVIS AND LA FOLLETTE

By GEORGE R. HOLMES
I. N. S. Staff Correspondent

New York, Nov. 5.—While a record breaking popular vote was cast in Tuesday's election, there appeared to be a doubt today whether the final figures will reach the 30,000,000 mark estimated by political leaders prior to the balloting.

Unofficial estimates today placed the total votes cast at approximately 29,000,000 as compared with 26,786,000 four years ago. These figures are based on heavy increases in registration in virtually every state and upon returns received up to noon today.

On an estimate of 29,000,000 it appears certain today that President Coolidge has eclipsed the record popular plurality of Harding four years ago. The unofficial tabulations today split the 29,000,000 votes in round numbers as follows:

Coolidge, 16,000,000; Davis, 8,500,000; La Follette 4,500,000.

In 1920 the Republican ticket polled 16,152,000; the Democrats 9,147,000; the Socialists 919,000, which, with scattering for other minor parties gave a grand total of 26,786,000.

Assuming the approximate correctness of the unofficial estimates for 1924, it can be seen that La Follette's Independent candidacy cut about evenly into both major parties, and, if anything, dipped a little more deeply into the Democrats than the Republicans. He hit the Republicans hard in spots as for instance Wisconsin, Minnesota and the Farm Belt, but he dug into the Democratic farm and labor vote pretty generally over the country.

In no state did President Coolidge run worse than second.

Coolidge's "big" states were New York, where he polled an estimated 1,800,000 votes; Illinois, Pennsylvania and Ohio, in all of which he went over the million mark.

Davis' "big" states were New York, Ohio, Missouri, Indiana and Kentucky. In New York he is unofficially estimated to have polled 800,000 votes.

La Follette's "big" states were New York, Wisconsin, Illinois, Pennsylvania, Minnesota, Iowa and California. New York gave him an estimated 400,000; Wisconsin approximately 375,000, Illinois 350,000 and the rest around 300,000. Ohio probably gave him 250,000.

## 245 REPUBLICANS, 186 DEMOCRATS, 4 OTHERS IN HOUSE

By A. O. MAYWARD
(I. N. S .Staff Correspondent.)

Washington, Nov. 6.—The new House of Representatives for the 69th Congress, according to latest unofficial returns, will be made up as follows:

Republicans, 245.
Democrats, 186.
Farmer-Labor, 2.
Socialist, 2.
Total, 435.

President Coolidge is assured of legislative control of the House by the Republican majority as it now stands. The La Follette managers have succeeded in returning to the House all the old following but they will be usable by coalition with the Democrats to outvote the regular Republicans on party legislaion.

**Pennsylvania Delegation.**

The defeat of Democratic candidates for the House was not so disastrous as in the Harding landslide in 1920. In that election they carried but 130 districts out of the 345. Their most spectacular loss last Tuesday was in Pennsylvania. The Republicans for the first time in years made a clean sweep of that state, carrying the 36 districts. The Democrats have six congressmen from Pennsylvania in the present House.

## "We Have Just Begun To Fight" Is Statement From Sen. La Follette

Madison, Wis. Nov. 5 (INS)—"By the election of President Coolidge the American people have chosen to retain in power the reactionary Republican administration with its record of corruption and subserviance to the dictates of organized monopoly" Senator Robert M. La Follete, Independent candidate for President declared today in his first formal statement regarding Tuesday's election.

The state called upon Progressives everywhere "to close the ranks and gird themselves for the next battle."

"We have just begun to fight," La Follette declared.

## SENATOR LODGE IS CRITICALLY ILL; CANNOT GET WELL

Boston, Nov. 6.—Senator Henry Cabot Lodge, senior Massachusetts senator, was in the shadow of death at the Charles Gate hospital today. The senator recently underwent two operations for obstruction of the bladder from which he was said to be recovering. A shock is responsible for the gravity of his present condition.

At 7 o'clock this morning, Dr. John S. Cunningham said the senator's condition was unchanged since midnight. Dr. Cunningham said that even if Senator Lodge survived the present attack he would be left a hopeless paralytic.

Senator Lodge was operated on for gall stones at Charles Gate hospital on July 27. The operation was considered successful and he returned to his summer home at Nahant after a brief stay in the hospital.

He was operated on a second time, October 20, with the intention of preventing any recurrence of the conditions which led to the first operation. Again his recovery was believed good until the relapse at noon yesterday.

## CORRECT BUSINESS METHODS TOPIC AT THE ROTARY CLUB

President Gurney Smith was elated last evening at the continued better attendance at Rotary meetings. The percentage is now well up in the eighties and still mounting. Last evening's meeting was in charge of Hobart Callahan's Business Methods committee. Hobart ably introduced the subject urging all members to affiliate with the local, state or national organization representing their classification. He then introduced Lawrence Dole who read a paper akin to the subject. Lawrence very instructively covered the topic, describing the ideal code of ethics by enumerating the things that should not be put therein. His purpose in approaching the subject from this angle was to forcefully point out the real purpose of a code of ethics; a guide to business men of any classification for the benefit of all people.

Cal Johnson reported the work of the Crippled Children's Committee progressing in nice shape, also on free will donations to the state society. Dr. Arthur D. Cowdrick was initiated at a five minute special meeting held after the closing hour. Visitors present were Bob Wilson, Captain of C. H. S. Football team, Kenneth Davis, Past President of the Amaka Club, Bill Boag, Seth Bloom and Prinicpal Baker of the DuBois High School.

President Gurney announced next week as Rotary Education night and expected visit from District Governor Roy Danzer of Hagerstown for Nov. 26th.

## PRESIDENT TRULY THANKFUL; GIVES RENEWED PLEDGES

### Makes No Appeal Except to Common Sense of People; No Pledge But to Serve All of Us.

### VICTOR IS MODEST

By H. K. REYNOLDS.
I. N. S. Staff Correspondent.

Washington, Nov. 6—President Coolidge has pledged himself anew to the promotion of the welfare of the American people.

The pledge was made in a formal statement thanking the electorate for the endorsement of his administration and for returning him to the White House by an overwhelming majority.

"It does not seem possible to me," the President said, "to make an adequate expression concerning the Presidency of the United States. No other honor equals it, no other responsibility approaches it. When it is conferred by an overwhelming choice of the people and vote of the electoral college, these are made all the greater. I can only express my sincere thanks to all those who have contributed to this result and plainly acknowledge that it has been brought to pass through the work of a Divine Providence of which I am but one instrument. Such powers as I have I dedicate to the service of all my country, and of all my office, I could not ask for anything more than the sympathetic consideration which my fellow Americans have always bestowed upon me. I have no appeal except to the common sense of all the people. I have made no pledge except to serve them. I have made no object except to promote their welfare.

The President's statement was issued following an exchange of telegrams between himself and John W. Davis, the defeated Democratic candidate, in which Davis congratulated Mr. Coolidge and expressed the hope that the new Coolidge administration would "inquire to the welfare of the country." The President's reply thanked Davis for his "patriotic sentiments."

Almost simultaneously, the President issued his annual Thanksgiving Day proclamation, setting aside Thursday, November 27, as a day for "National Thanksgiving."

"The year has been marked," Mr. Coolidge said, "by a continuation of the peace whereby our country has entered into a relationship of better understanding with all the other nations of the earth. Ways have been revealed to us by which we could perform very great service through the giving of friendly counsel, through the extension of financial assistance and through the exercise of the spirit of neighborly friendliness to less favored peoples. We should give thanks for the power which has been given into our keeping, with which we have been able to render these services to the rest of mankind.

"At home, we have continually had an improving state of the public wealth. The production of our industries has been large and our harvests have been bountiful. We have been remarkably free from disorder and remarkably successful in those pursuits which flourish during a state of domestic peace. An abundant prosperity has overspread the land. We shall do well to accept all these favors and bounties with a becoming humility, and dedicate them to the service of the righteous cause of the giver of all good and perfect gifts. As the nation has prospered let all the people show that they are worthy to prosper, by re-dedicating America to the service of God and man."

### BROOKHART JUMPS INTO LEAD AGAIN

DesMoines, Iowa, Nov. 6. (INS.)—Senator Smith W. Brookhart, Republican, has an unofficial lead of 66 votes over Dan Steck, Democrat, in the Senatorial contest with all of Iowa's 2,418 pecincets unofficially accounted for. The figures were: Brookhart 445,293; Steck 445,227.

## SOME PECULIAR DEVELOPMENTS IN JEFFERSON VOTE

With but one precinct missing in Jefferson county and but three short in Indiana county, the election of Lee S. North, of Punxsutawney, Prohibition candidate for state senate from the Jefferson-Indiana county district, over Dr. W. S. Blaisdell, of Punxsutawney, the Republican nominee, is assured.

In 74 out of 75 precincts in Jefferson county, Blaisdell has a total of 7474 votes and North a total of 6243. The missing precinct is Clover and will not materially change the figures. In Indiana county 72 precincts out of 75 give North 8073 and Blaisdell 6380, a majority of 1691 for North in Indiana county. Blaisdell's majority in Jefferson county is 1231. giving North a lead of 462 votes with 4 precincts missing. The missing precincts in Indiana county, it is believed, will slightly increase North's lead.

Nathan L. Strong, Republican nominee for congress, has defeated Dr. John H. Murray, of Punxsutawney, who ran on the Prohibition ticket. Strong carried Jefferson county by a margin of 1800 votes. Indiana, Armstrong and Clarion counties all gave Strong substantial majorities.

For representative in Assembly Charles H. Irvin of Big Run, the present incumbent, won easily over C. W. Biggs of Punxsutawney, the Democratic nominee. Complete figures are not available on the Assembly contest.

In Jefferson county Calvin Coolidge has a majority that will approximate 10,000. La Follette ran a strong race but it is believed finished behind Davis. Figures on the presidential race will not be available until the official count is completed.

They were united in marriage on Nov. 5th, 1874 where the Aughinbaugh Drug store is now located and after the ceremony they drove to Lumber City, the home of the bride, for the paternal blessing. The popular way of traveling then was the horse and buggy. The family, relatives and friends gathered at St. John's Lutheran church about the noon hour. The first thing on the program was a scene long to be remembered when three generations stood before the altar while the children of Mr. and Mrs. Harry Tate were dedicated to Christ in baptism. Following this all were invited to the dining room where the ladies of the Aid had prepared a most delicious chicken dinner which was greatly enjoyed by every one. At the center table where the immediate family were seated in the center of the table stood a bashful blushing bride and bridegroom as a part of the decorations.

## Tickets Going Fast For Greb Bout At Midway Armistice Day Afternoon

Philipsburg, Oct. 28.—The Philipsburg mill[illegible] show on Nov. 11, arranged by the John Ashley Dennis, Jr., Post of the American Legion as a suitable windup for the annual observance of Armistice Day in this section, takes on brighter aspects each day as interest mounts in the forthcoming event. The steadily increasing advance sale of tickets is another good sign that points to the success of the big boxing event on that date.

The fight has attracted widespread recognition and interest, as is reflected by requests for pasteboards being received from many cities in western Pennsylvania. Altoona fistic exponents have filed requests for whole blocks of tickets. Dick Conlon's appearance on the card is not the only reason for the popularity of the show in Altoona, as the fans have complimented the local Legion members on the merit of the show.

Piedro Campo, lightweight kingpin of the Philippines, will be Conlon's opponent at the forthcomng show.

A man with a punch that dazed dozens of leading heavyweights and a world war veteran who has distinguished himself in over 100 battles with some of the best heavyweights the world has known—that describes Bob Martin, who will endeavor to show the fistic populace how prominent heavyweights conduct themselves within the 18-foot enclosure when he meets Ray Vaullerment of Philadelphia in the semi-windup of the card.

Harry Greb, world's middleweight champion, will tackle Otto Hughes, former 160-pound titleholder of the U. S. Navy, in the main bout of the card. The opening battle will bring together Mickey Burket of Altoona and Johnny Jadick of Philadelphia, two fast stepping bantamweights.

Tickets for the show may be reserved by writing to the American Legion at this place.

### Curious South-Sea Jargon.

Bench-la-mer is a curious jargon which has developed as a means of communication between English-speaking traders and the islanders of the western Pacific. It derives its name from that of an edible marine organism, the fishing of which flourished in the South seas in the middle of the last century. Nearly all the words in this language are English, but they are strung together by the natives in accordance with the rules of their own speech.

## GETTING UP NIGHTS

Tells you there is danger ahead. A healthy bladder does not act at night. J. H. Dorton, W. Graham, Va., says: "I have to get up seven or eight times at night for forty years. I thought it was my age. After taking Lithiated Buchu a short time, I am ahead." Lithiated Buchu cleanses the bladder as Epsom Salts do the bowels, thereby relieving irritation, driving out foreign matter and neutralizing excessive acids. These are the causes of unnatural action of the bladder at night. Lithiated Buchu (Keller Formula) is not a cheap medicine. The tablets cost two cents each. Sold at all leading drug stores or Keller Laboratory, Mechanicsburg, Ohio. Locally at Stewart Drug Co.

# Market News

New York, Nov. 6. (INS.)—Strength and activity of railroad stocks, under the leadership of Atchison and New York Central, featured the stock market in the early trading today.

Industrial and specialty stocks maintained a strong tone, with prices of market leaders fractionally higher than at the previous close. Mixed movements characterized the oil and copper stocks, some of them giving ground on profit taking, while others inaugurated new forward movements.

While the market was devoid of the spectacular features which ruled in Wednesday's early session, quiet strength prevailed in every department. Stocks were absorbed as fast as they were offered. A good impression was created by the belated reports from some of the election contests showing that the overthrow of the so-called radical element in the west, which advocated sweeping changes in railroad legislation, had been complete. This was of particular significance to investors in railroad securities since it promises relief from congressonal attacks on the transportaton systems.

An unofficial tabulation this evening at the county commissioner's office in Ebensburg, gave Walters, 23,518 votes and 23,479 for Bailey. An official count will be necessary to detrmine the winner of the congressional fight.

Herman Baumer, of Johnstown, Democrat and Labor, was elected to the State Senate from this county, having a plurality of 1,148 votes over Charles Leventry, Johnstown, Republican and Prohibitionist, said to be supported by the Ku Klux Klan.

Two Democrats were elected to the General Assembly from the county district Patrick McDermott, incumbent, running nigh and Joseph Washington sesond. An official count will be necessary to decide the winner of the third seat in the Assembly from the county district, Milton Spencer, Republican, having a plurality of only two votes over William G. Griffith, Republican, incumbent.

# An Endorsement of Pigeon Hosiery

One of our good friends was in the store early this morning and called our attention to last night's advertisement about the wearing qualities of PIGEON HOSIERY.

"You were too conservative," she said, "You did not make it strong enough. I started to wear two pairs last Christmas and I have one of them on now. They are not showing the least sign of a break anywhere and the other pair is just as good."

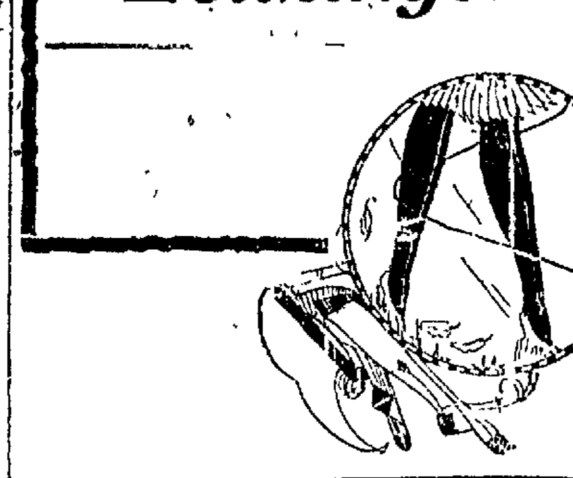

Think of it! Nearly a year's wear from a pair of silk hose!

The colorings of the hose were good. The hose at the line of the top of the oxford the lady wore did not show the usual "shoe-line" wear.

And, being an official "PIGEON" Agency in this city we can place our guarantee behind the maker's and tell you that we will protect you in every way against every defect in PIGEON HOSIERY.

## PEOPLE ARE BUYING

If times have been hard this year, or are hard at present, the big chain stores and mail order houses don't know it.

Sears, Roebuck & Co. of Chicago reports an almost incredible wave of prosperity. A big department store with branches in various cities estimates that its sales will reach $105,000,000 for the year, against $90,000,000 last year and $61,000,000 the year before. Gimbel Brothers of New York expect to do several million dollars' worth of business more than in 1923. Another firm covering a wide territory estimates its sales for 1924 at $80,000,000, against $73,000,000 in 1923 and $61,000,000 in 1922. A big dry goods organization says its earnings this year will be about $20 a share. Montgomery Ward, Kresge, Woolworth and other dealers in their lines, which reach into every community in America and into almost every home, say their sales have shown a good increase and indicate a continuation of the demand.

Here is proof of the best kind, from many sources, that the plain people—the average consumers, who count most in any estimate of national well-being—have money and are buying. Which is, after all, no more than should have been expected, in a situation so sound economically as that now prevailing.

## THE THIRD DEGREE

The Supreme Court of the United States has condemned in scathing terms the common police practice of the "third degree". The case may become a notable one. It is that of a Chinese named Wan, accused of murder in the District of Columbia and convicted on his own alleged confession. That confession, the court holds, was invalid, because he confessed under coercion and virtually under torture. So the court reverses the verdict and takes occasion to read a lecture to the police on their procedure.

It appears that the defendant, seriously ill, was taken to the police station, held incommunicado, bombarded with interminable questions, taken to the scene of the crime and compelled to reenact a representation of it and kept without sleep or medical care for nearly two weeks. At last, in weariness and desperation, he yielded and signed his "confession".

Many a man did the same thing in the Spanish Inquisition, and in other inquisition not spelled in capital letters. The process is far more common in this country than the police anywhere like to admit, or than the public has any idea of.

For many other wrongs, it is meant for a praiseworthy purpose—the detection and punishment of crime. It may be defended when applied in moderation, to exceptional cases. The trouble is that it is so easy to abuse principle and go to extremes, without any warrant in law or regard for basic human rights.

It must be said, without any suggestion of coddling criminals, that the decision of the Supreme Court should serve as a warning to police officials everywhere. It should remind them that in America every man is legally innocent until he is proved guilty, and that no matter how strong the presumption of guilt, every man still has inalienable rights, in the police station as in the court room.

## FUTURE COURSE OF COOLIDGE

(Continued from Page One.)

ed" the Mellon plan, vetoed the bonus and the postal pay increase bill, but in so doing he did not "fight" Congress in the sense that Roosevelt did.

For the next three months, the President will have to deal with the same recalcitrant Congress that has fought him and administration policies generally throughout his tenure of office. Moreover, it is now a "lame duck" Congress, and probably more recalcitrant still.

Little can be expected of it except the passage of the usual appropriation bills before it dies naturally the fourth of March next.

**New Congress Next Year.**

The new Congress, elected Tuesday, is somewhat better, but it is a question whether it will be more amenable to White House discipline than the outgoing one. While the Republicans appear to have made substantial gains Mr. Coolidge will still have to face narrow working majorities in both houses. And in the Senate particularly it is question whether the margin of control will not still be vested in a combination of Democrats and those of his own political faith who do not agree with many of his policies—La Follette, Frazier, Ladd, Norris and others who on occasion vote with them.

It may be that the Senate will be more in awe of Coolidge in the face of the popular endorsement Mr. Coolidge received at the polls on Tuesday and the severe lacing administered some of his foes. Again it may not be confronted with this situation. The questions being asked around Capitol Hill today were:

**Will Coolidge Change?**

"Will there be a 'new' Coolidge, a militant, forceful, dominating aggressive Coolidge, who will drop the mantle of reserve that necessity forced on him when he became a dead President's constitutional heir? Will he bludgeon Congress into doing his bidding? Will he, now that he is President in his own right, force action on the world court in an unwilling Senate, the unwilling ones being in his own party? Will he again attempt to jam through the Mellon plan, lowering taxes on huge incomes, in the face of Democratic and Progressive opposition?"

All these and many similar questions will be answered in the months immediately ahead of Calvin Coolidge—President no longer by a stroke of fate, but by one of the most impressive popular triumphs in the history of American politics. It is expected that the cabinet, part of which Mr. Coolidge inherited and part of which he appointed, will continue in office. He has at the outset one vacancy to fill, in the Department of Agriculture, due to the death of Henry C. Wallace.

It is said the President is endeavoring to obtain for the post ex-Governor Frank O. Lowden of Illinois, who, had he consented to it, would have been the next vice president. He was nominated at Cleveland and then turned it down. Lowden has been offered and refused more government jobs than any man extant. Harding offered him three cabinet posts and his choice of a diplomatic aappointment, all of which were rejected.

Lowden's friends say that he still does not want any job, but that his interest in agriculture might lead him to accept it. Agriculture is his hobby and chief avocation. The acquisition of the ex-governor would bring into the Coolidge cabinet an outstanding figure in public life, as well as one of the foremost agricultural authorities of the country.

It is considered certain Charles E. Hughes will remain as Secretary of State. He was Coolidge's chief spokesman during the campaign. It is likewise considered certain that Andrew W. Mellon will remain as Secretary of the Treasury.

Two other members of the cabinet, Attorney Stone and Secretary of the Navy Wilbur are Mr. Coolidge's own appointees and are expected to stay.

Concerning the balance of the official family there is some doubt.

There have been reports recently that Secretary of War Weeks and Secretary of Commerce Hoover are as anxious to retire, the former on account of advancing age, the latter for private business reasons.

This leaves Postmaster General Harry E. New, Secretary of the Interior Work, and Secretary of Labor Davis, all members of the Lowden cabinet. Their future is said to be uncertain.

One of the early changes President Coolidge is expected to make is in his private secretary, C. Bascom Slemp, who, now that the campaign is over, is said to be anxious to get out. There has been constant friction between Slemp and William M. Butler, generalissimo of the Coolidge campaign.

There is also keen speculation in the capital as to what reward Butler will receive for promoting one of the most successful campaigns in Republican history. The expectation prevails that a cabinet post will be made available to him before many weeks.

## PENNSY-GRAMS

Philadelphia, Nov. 6 (INS.—Police today arrested Martin Watson 20, who is charged with knocking a fellow workman to his death yesterday while both were working on a scaffold forty feet above the ground. It is alleged James Garrow, the dead man was struck by Watson who then fled over the skeleton framework of the building with other workmen in pursuit.

Bradford, Pa., Nov. 6 (INS.)—The most disastrous fire here for years this morning caused damage estimated at $350,000 when the large brick building of the Star garage on Barbour street was totally destroyed. Approximately $50,000 of the loss is covered by insurance.

The building contained 125 automobiles which were destroyed, fifty cars on the first floor being taken out by employes before the flames reached them.

The blaze started with an explosion of unknown origin on the second floor.

### LET THEM TRY IT

By FLORENCE DAVIES

One would suppose that a new form of government, having a country to make over, would be so busy with essentials that it would let purely personal matters alone. But it seems that such is not the case. The world of today is engrossed in an effort to regulate the personal affairs of the individual, and nothing is too trivial for the reformer's hand.

Here's Russia, for instance. Now, you'd certainly think that the Bolsheviki had plenty to do, what with trying to establish their new kind of government on a people so long ruled by a czar. You'd think that with a country to make over, with the whole world looking skeptically on their economic theories of government, they would devote their attention to making their land prosperous and happy, just to prove the scoffers wrong.

And of course, you'd be all wrong.

Some of us have looked on with more or less toleration while the Soviets ruined their nation's aristocracy. Maybe they deserved it, we thought. We even held our peace while the Soviets set their faces against the Church. If the Church is right, and necessary to the Russian people's happiness, it will survive, we said. And we watched unmoved while the Bolsheviki undermined their country's commerce and ruined its industry. If they can make communism pay, why, let them do it, we said. Russia is a long way off and some day somebody must prove every theory right or wrong.

These were trifles. And they were matters of governmental prerogative. Probably that is what the people thought they wanted. And maybe, after all, one method of business, or one class of society, is just as good as another.

But now the Soviets have proved that they are all wrong, that they are not fitted to govern, that they don't know anything about government, or religion, or business, or aristocracy. What do you suppose they've gone and done now? They have forbidden kissing. Which just proves that, in addition to all the rest of their shortcomings, they don't know anything about human nature.

The Church may fail, and new Churches will arise; business may be abolished, and new ways of trading will be found; aristocracy may be killed off or humbled, and the nobodys will become somebodies. But the kiss has stood since the begining of time; it preceded religion, and aristocracy; it was a sign and a symbol before even trading came to presage modern business, and it will survive the newest form of government just as surely as it lived through ages which knew no government at all.

In America society bootlegs its liquor. But in Russia it will "bootleg" its kisses.

## BOWMAN GOT A BEAR

M. T. Bowman, the local real estate man, came to town from the Keating country on Monday evening with a fine big bear he had shot and killed in the wilds down near the junction of Clearfield and Clinton counties.

The story goes from the Keating region that Tom had followed the bear for a day and a night before he finally succeeded in downing him. When the daring hunter fired the fatal leaden pellet into the bear's brain the hunter and his quarry were less than 12 feet apart. Tom had placed one foot on a log crossing a deep but narrow gully when the bear loomed up at the other side of the gully directly in his path and but 12 feet away. Two shots in quick succession and the bear was as dead as the Democratic party. It weighed 350 pounds and was a fine specimen.

Allen Gaines had been hunting the same bear for some time.

## COUNTING THE VOTE

The work of computing the vote cast in Clearfield county at Tuesday's election was begun at 12 o'clock noon today as the law provides. At that hour Messrs James Kenno, of Osceola; R. M. Hershey and Joseph R. Chase, of Clearfield who had been appointed by Judge Chase, were sworn in and the Return Board organized.

Adjournment was then had and at 1:30 this afternoon the entire Board consisting of Judge Chase, Prothonotary Ralston and the three gentlemen named, took up the labor of computing the returns from the 110 districts of the county.

More than 21,000 votes were polled Tuesday the largest in the county's history tho but little more than fifty per cent of the total registration, and the work of computing the returns will likely take ten days or two weeks.

## 79TH BIRTHDAY TODAY

Hon. Frank G. Harris is quietly celebrating his 79th birthday anniversary at his home on West Fourth ave. today. Mr. Harris' health, which had not been of the best for some time, has improved greatly recently, his host of friends over Clearfield county will be glad to know. He has long been an enthusiastic hunter and sportsman and on Monday last sallied forth into his favorite hunting ground and managed to bring down a pair of fine pheasants in a three hour hunt.

Burgess Clouser, of Houtzdale, wheel horse in the Republican organization at Houtzdale, was in town on business yesterday.

# You'll never go wrong on this gasoline

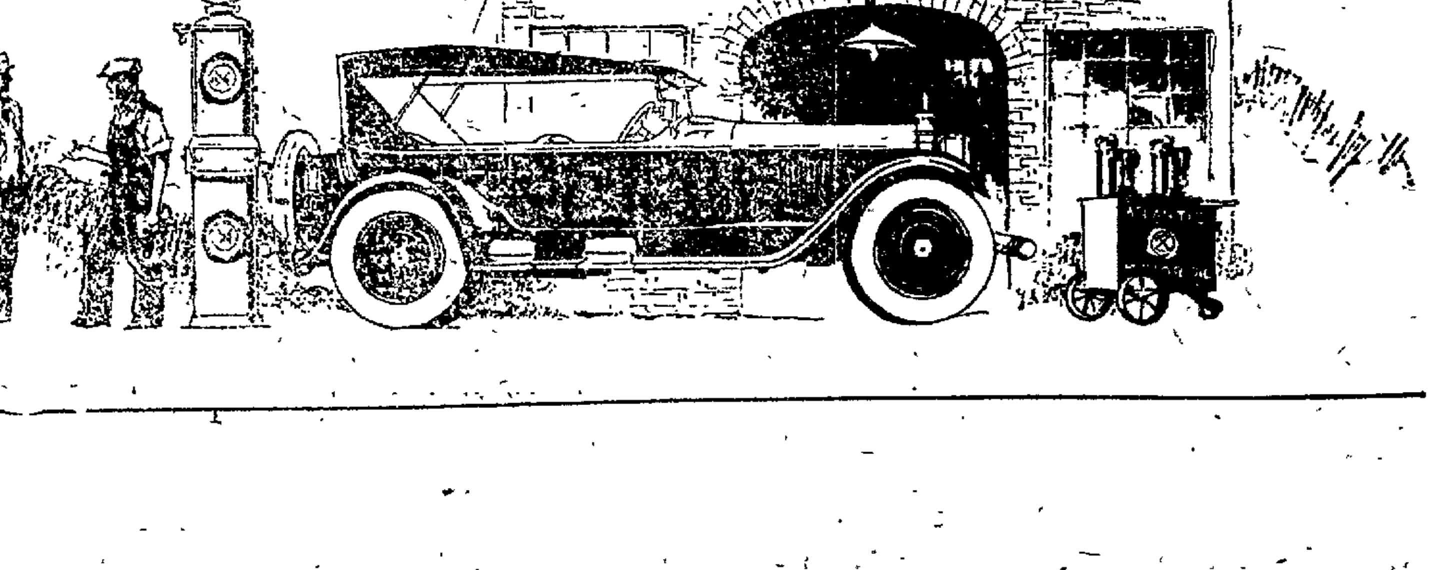

You can trust Atlantic Gasoline always. You can depend on it to meet every improvement in automotive construction and to keep step with every development in refining progress. You can be certain that Atlantic is thoroughly efficient under all of the widely varying conditions under which a motor fuel must operate.

Atlantic is *full-powered* gasoline. It is clean. It is uniform. It is scientifically *balanced*. It is made to fit the seasons and regions in which it is sold.

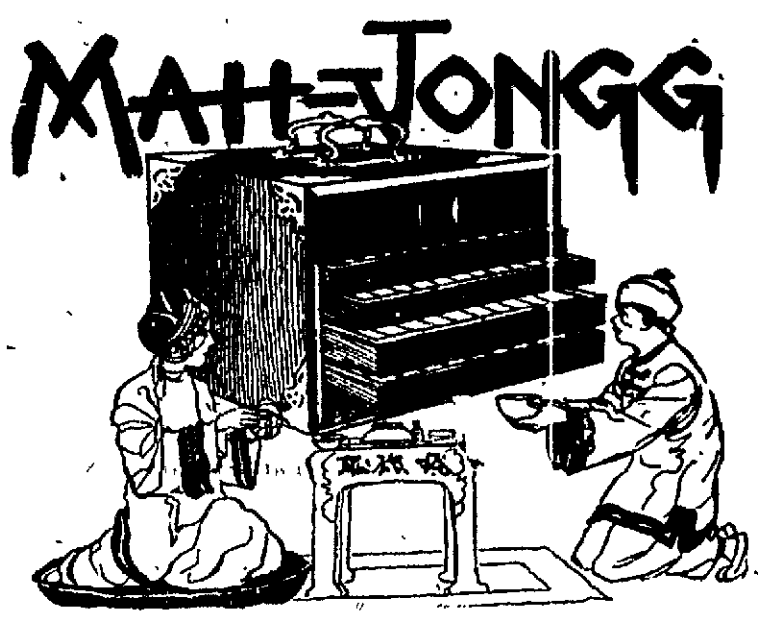

If you could see—if you could follow—if you could analyze the minute processes of combustion attending the burning of a charge of Atlantic, you'd find this: That Atlantic vaporizes easily and lets the spark take hold instantly. That it burns completely and releases its dynamic force exactly when the timing mechanism tells it to. That it leaves almost no carbon. And that it contains nothing to pit your valves or injure your motor in the slightest degree.

So bear in mind that in Atlantic you get more than good gasoline—you get *right* gasoline. You get the product of one of the oldest and most progressive refining organizations in the country—a product behind which is the experience of men who know what crude oils contain the most desirable motor fuel distillates, how best to extract them and how scientifically to balance them for utmost efficiency. Atlantic refining engineers overlook nothing in keeping Atlantic at the forefront of motor fuels.

No, sir! You can't go wrong on Atlantic. You can't buy a gasoline that better serves your needs or better conserves your motor. Always right, always full-powered, always dependable.

**Tom Sims Says**

Trees have their limbs bare in winter and covered in summer, differing from women in summer only.

No woman is an old maid until she dresses like one.

Our greatest kick against the scenery in autumn is we run out of adjectives.

Well, they claim a man in Vienna has 42 wives, so all we can say is he wins the loving cup.

A man who took a drink in Peoria, Ill., woke up in Miami, Fla. Anyway, he was lucky to wake up at all.

A Springfield, (Mo.) girl of 19 married a man of 85, and lawyers claim he is crazy, while we claim she is.

Twelve were jailed for tarring and feathering a Maryland girl, a case where fine feathers made sad birds.

It's a strange thing, but no matter how an election comes out, the country never goes to the dogs.

Utah woman killed her husband on their honeymoon, instead of putting up with him for a while.

Some people go hungry for fear of biting off more than they can chew.

The trouble with owning a grouchy look is you seldom get a pleasant one.

One meek as a kitten may grow up to be a wild cat.

**It Happens Every Day**

When you begin to figure that you are doing pretty well to have a little pile saved up toward buying a car, and you and your wife spend quite a bit of time in considering what kind you'll get—it must be small, but good—

And then the man across the street—whose income you know isn't any bigger than yours—breaks out with a handsome touring car that must have cost twice what you were counting on paying—

And your little car that you're going to get "one of these times" doesn't look nearly so good as it used to, and you're feeling pretty discouraged—until one evening your wife tells you that the wife of the man across the way just told her that their car isn't a new one—

And that he saw an ad about it in the Progress Automobile columns and got it for less than you have saved up—and that you can do the same thing, yourself, if you watch those ads—

That Puts The Joy Back Into Life!

## Curwensville's Own Column

George C. Fleming went over into Centre county the first of this week and came home election day lugging a twelve pound wild turkey. There was no suspicion that "Piney" had not make the kill himself, as a leg wing and the head was shot away.

Isaac Kantar and son are spending this week in New York and other eastern cities laying in a supply of saleable winter goods.

Those interested in the Greenwood Hunting Club indulged in a card party last evening with their wives and number of invited guests from several sections of this and Indiana county. Dr. Sloan of Cleveland was among the foreign guests.

Mr. and Mrs. David Clymer of Lebanon, Pa., are the proud parents of a young daughter which Dr. Stork left at their home on day last week. The mother will be remembered as Miss Ruth Ake, formerly of this place, and daughter of Dr. Ake.

In conversation yesterday with several men who are interested in bringing that new building brick plant to Curwensville, we were told that the start was coming without fail. Men interested from a distance were in town early this week and held conferences with the people here who are promoting the industry. Plans have already been laid for the buildings and kilns, the latter being of the continuous pattern which are more practicable and saving than the old style round kilns. Options have been taken on threesites, none of which have been chosen as yet. Both buff and red bricks are to be manufactured and it is claimed that the plant when it once gets started will employ from 90 to 100 men. The handling of the stock we are also informed will be owned by home people and that fact alone is best assurance that it will be successful. There will be a wonderful demand for building brick in the spring there being no brick yet in color wanted. The people of Curwensville will welcome this new industry in their midst, knowing that it is not going to interfere greatly with the other large plant that is already here in operation, as the two kinds of bricks are in no ways similar.

There was not a great deal of fuss around Curwensville at or over the election on Tuesday. A large vote was polled, the total vote being 762. The First ward tallied up 370 and the Second ward went 22 better, its vote being 392. The vote for W. I. Swoope was 385 and for Benson 322 ;Swoope's majority 163. Lukehart, 387; Betts, 375; Weiser 124. Lukehart having a majority over both opponents of 87. Coolidge received 597 votes; Davis 182 and LaFollette 56. The balance of the vote was largely Republican. Convention No. 393; Yes. It has been very rarely if ever if Curwensville went and gave a Presidential candidate on the Democratic ticket a majority, although several narrow escapes have been made from time to time. We are noted for being a strong Republican town ever since the Civil War and can be depended upon to roll up a decent Republican majority at time of every Presidential or State election. In borough affairs the voters sometimes jump over the fence but not often.

John Flynn, a former resident of Clearfield died yesterday afternoon at his home on North Walnut street after an illness of but a few days, aged 77 years. The body will be taken to Greensburg tomorrow for burial.

## SWEATERS OF ELEGANCE KNITTED OF PURE SILK AND PLAIDED

SPEAKING of knitted apparel quite apropos nowadays, is the phrase, "To the queen's taste," for recorded in the history of present-day fashions is the interesting statement that Queen Mary of England has chosen not less than six knitted outfits as part of her fall wardrobe.

Nor is it to be regarded as other than a logical sequence that knitted costumes should qualify as raiment for royalty as interpreted this season in terms of picturesque tunic frocks, handsome ensemble suits, novelty topcoats, sweaters the like of which have never been equaled, not to mention scarfs, shawls and the like.

When it comes to sweater elegance, exclusive taste favors the type knitted of pure silk and plaided in colorings most intriguing. White and red is a very fetching combination when plaided after the manner of the model shown in this picture. In the superiority of its quality it carries a convincing air of patrician style.

Individuality and originality have reached their highest expression this season throughout all knitted outerwear. Remarkable effects are attained in brushed wool, in clipped yarn trimmings, in knitted boucle and fur simulations, in combinations of woolen yarn with rayon or fiber silk, in gorgeous embroideries, gay colors on white knitted garments especially.

Among the knitted garments playing an important role at all fashionable occasions where sportswear prevails, the three-quarter length coat, most frequently in brush wool, is the outstanding item. These are not flamboyant in color but, rather, developed in soft woolen yarns. Soft blendings of brown and tan worked in mosaic patterns are favored.

The plaided knit coats with trimmings of solid-color brush wool are handsomely featured, especially making color the basis for effect. Prominence is especially given to two distinctive colors in the newer garments, namely, henna and powder blue. In regard to the latter, shades of interesting blues have become quite a fad among the younger set, who wear coats, hats and scarfs to match in mellow blue often combined with gray.

Fort Worth, Texas, Nov. 6 (INS.)—Fire following the explosion of five bombs in the Ku Klux Klan newly constructed additorium here today completely demolished the structure with a loss of $200,000.

Klan officials say a dozen witnesses who were in the vicinty of the building when the first blast occurred, declared the auditorium was practically wrecked before flames permeated the ruins. The first explosion sent the roof crashing down, followed quickly by more discharges that collapsed the walls.

The huge hall, but recently dedicated covered a block in length.

**War First in Mind of Kafir.**

The Kafir's ritual of worship, such as it is, consists of war dances and wild appeals to the god of war. Throughout these ceremonies there is interwoven a curious thread of Zoroastrianism, and Hinduism, as we might expect, but mainly it is pure paganism, and the god whom they delight chiefly to worship is their god of war—Gish.

## Why Suffer From Bronchia Asthma?

**Simple Home Treatment Makes Breathing Easy**

Just because you start the day tired, lifeless, worn-out from lost rest and the difficult breathing of miserable Asthma—do not think you have to stay this way long.

Be strong and well, breathe clearly and easily again by using this simple treatment known as Oxidaze, the prescription of a Worcester, Mass., physician.

For any form of Asthma where the bronchial tubes are irritated, the breathing short and difficult, its healing, relieving action is really wonderful. Sufferers who can't breathe at night and who gasp for a good, clear breath will appreciate the relief and comfort Oxidaze gives.

Oxidaze is a tablet made from essential oils which, when the patient dissolves in the mouth, almost immediately soothes the irritation, clears out the closed up air passages and enables the sufferer to breathe easily and get a real comfortable night's sleep.

It is sold by leading druggists, including Bloom's Drug Store, who agree to refund the full purchase price of the first package to any sufferer who does not obtain satisfactory relief. Asthma sufferers should give Oxidaze a trial. It is harmless and inexpensive.

## FARM STOCK

### YOUNG PORKER WILL MAKE CHEAPER GAIN

When does a pig make its cheapest gains, and when does it sell for the highest price per pound? This is a question that often confronts the farmer who is raising pigs for the market, says Prof. L. V. Starkey, chief of the animal husbandry division at Clemson college, in discussing the marketing of hogs.

Experimental data prove beyond a doubt that the younger the pig the cheaper the gains. A review of the pig market reveals another very interesting fact, namely, that feeder pigs sell for a higher price per pound than those which are ready for the block. If we put these two ideas together it would seem that there is more money in producing feeder pigs than there is in producing fat hogs ready for market. Of course there are many factors, says Professor Starkey, to take into consideration in producing feeder pigs. For example, fairly large litters must be raised. If the herd does not average at least six pigs per litter there will be no money in it. Large litters and cheap pigs go together.

One reason why feeder pigs are so much in demand is that there are so many who do not keep a brood sow and yet they want one or two pigs to fatten for pork.

The man who produces feeder pigs on a large scale must have considerable equipment. Several small lots are necessary in order that not more than two brood sows may be in a lot. Usually good results cannot be obtained by keeping several brood sows and litters together.

With the small-lot proposition there also comes the problem of fresh water. Running streams are ideal for the hogs, but hard to keep fenced. If water is piped to the lots, care must be taken so that there will be no mud wallows.

Male pigs should be castrated at from six to ten weeks of age. The younger they are castrated, the less will be the shock. The best time to wean feeder pigs is when they are eight weeks of age.

The greatest demand for feeder pigs is in the fall when corn is ready to be used. At this time carlot shipments can be made.

### Proper Ration for Mare Is of Much Importance

"The best time to grow foals, and the time when they will make their largest gains is when they are being carried by their dams," says N. K. Carnes of the animal husbandry division at University farm at St. Paul, Minn. "Many farmers do not realize this, and begin feeding the mare a proper ration only after the foal is here. The brood mare, when in foal, should be fed a high protein ration, a ration which is rich in muscle and bone building material. This material is supplied in the form of oats, bran and oil meal, as a concentrate, and clover or alfalfa hay as a roughage.

"The most common causes for losses among foals are constipation and navel trouble. As soon as the young foal arrives, see that he gets a good drink of his mother's first milk. This fore-milk or colostrum has purgative properties and will usually clear the foal's intestines of the excrement accumulated prior to birth. If the digestive tract is not cleaned by the fore-milk, give the foal a tablespoonful of castor oil and a warm water and soap rectal injection.

"Another thing the farmer must watch out for is navel infection. If pus and disease germs get inside the body through the opening of the umbilical cord, a local infection or 'joint ill' may develop and the foal be lost. The best way to prevent this is to keep the stable in a sanitary condition and treat the cord immediately after the foal is born with boric acid powder or tincture of idoine."

### Live Stock Hints

Avoid stagnant mud wallows.

* * *

Change pastures for sheep frequently.

* * *

A pig that doesn't make a hog of himself isn't profitable.

* * *

"Purebred Live Stock on Every Farm." Eventually, why not sooner?

* * *

Watch your sheep carefully to see that they do not become infested with worms.

* * *

Tip to dairymen: Proper feeding means cheaper milk and, therefore, more profit.

* * *

Cattle, horses and sheep as well as hogs are fond of hay, but they cannot be expected to eat the coarse stems.

* * *

Colts, calves, lambs and pigs, all should have special feed set apart for them as soon as they can be coaxed to eat. Oats are very good.

Naumikawa, the cloisonne-worker at Tokio, could have made a better moon.—Thomas Bailey Aldrich.

**World's Supply of Indigo**

Indigo, which is obtainable from plants of several species, is probably the oldest dye known to mankind. At the present time the bulk of the world's supply of indigo is obtained chemically from aniline. The importance of natural indigo is rapidly diminishing. About the only regions where indigo farming still prevails on a commercial scale are Bengal, in India, and Salvador, in Central America.

## Says Piles Heal Up and Disappear Forever

**Seldom Fails to Give Absolute Relief from All Pain and Suffering. Guaranteed by Stewart Drug Co. and All Good Druggists.**

Many sufferers from Piles or Hemorrhoids have become despondent because they have been led to believe that thir case was hopeless and that there was nothing in the world to help them.

To these people we say, "Go to your druggist and get an original box of MOAVA SUPPOSITORIES." One of these inserted into the rectum according to directions will be found to give immediate relief. They reach the source of the trouble and by their soothing, healing, antiseptic action first allay the pain and soreness and then by direct contact with the ulcers and piles cause them to heal up and disappear forever.

It's simply wonderful how speedily they act. Blessed relief often comes in two days. Even in cases that have resisted all known treatments, marvelous results have been obtained. MOAVA is one of the wonderful discoveries of recent years and any sufferer from Piles or Hemorrhoids who is disappointed with its use can have their money refunded.

## DAYTIME FROCKS EXPLOIT THE BLOUSE AND TUNIC

A COSTUME made up of a plaited skirt worn with an overblouse, is [illegible] as the A B C's and about as established. The plaited skirt [illegible] the year in and out but always holds its cause with success, as a perfect companion piece to [illegible] different sorts—for practical. But this fall we have plaited skirts constant to one overblouse, each [illegible] the sign of their union in [illegible] and novel decorations. One of [illegible] wholly charming and practical [illegible] is shown here and the chances [illegible] many a woman will want one [illegible]

It is of black satin with a [illegible] that is made of white [illegible] in a fold, placed at each [illegible] skirt and at the front of the [illegible] Over this there are tabs of [illegible] each one held in place on the fold by a flat, pearl button sewed to it. The same kind of trimming is made, using tan or ecru crepe de chine with black or other dark colors in satin. Handsome collar and cuffs of filet lace seem a better choice than any other—they are as chic and dependable as the blouse they finish. Business women will find this model worth considering.

The last arrivals in day dresses show the tunic dress in many pretty versions. The tunic blouse has made a sweeping success and is developed in almost as many variations as the overblouse—it is usually worn with a plain, narrow skirt. By these means the [illegible] straightline modes are given further diversity.

**ROSS AND WOODS GENERAL MERCHANDISE**

*You Should Have a Flashlight When You Start to Hunt*

If you're much of a hunter, you've been caught out in the woods and would have given most anything to have had a light. You knew the path, of course, but you did a lot of stumbling around before you got out on the road.

A Flashlight would have done away with all this unpleasantness and you would have been able to make so much better time getting to your car or out on the road where it would have been easier walking.

The heaviest Flashlight weighs but about 12 ounces. It will throw a ray 500 feet and it's mighty cheap insurance against twisted ankles or possibly worse.

Come in and get yours before the Governor lifts the ban on hunting.
